King William School Board Announces Superintendent Search

(January 19, 2023)—The King William County School Board announced today that it will begin the process of hiring a new superintendent by seeking public input on qualifications.

The school board has created a survey related to superintendent criteria, which is available at <https://www.surveymonkey.com/r/kingwilliamsurvey>, and on the home page of the division web site. Hard copies of the survey will also be available at the school board administration offices, an at each school.

In addition to the survey, the board will hold a public hearing:

Date: January 31, 2023
Time: 6:00 pm
Location: Hamilton Holmes Cafetorium

“Hiring a new superintendent is the biggest task a school board will face, and we want to make sure that the public has a voice in this process,” said School Board Chair Terry Stone, “We hope that parents, staff and residents will take time to fill out the survey or attend the public hearing.”

The school board selected the Virginia School Boards Association (VSBA) to assist the board with the superintendent search.
